

WABORENA HARMONY MADISHA

Johannesburg, Gauteng | madishaharmony@yahoo.com | 064 802 6856

Portfolio: <https://harmonywm.github.io/Waborena-H-Madisha-Portfolio/>

PROFESSIONAL SUMMARY

Software Engineering graduate with strong SQL, database management fundamentals, and problem-solving skills. Experienced in working with relational databases, writing queries, and analysing data through projects and hackathons. Knowledge of data integrity, backup concepts, and system performance optimisation. Strong ability to troubleshoot technical issues, support database environments, and collaborate with teams to ensure reliable and efficient data systems.

TECHNICAL SKILLS

- Programming: Python, Java, JavaScript, C++
- SQL Databases (PostgreSQL, MySQL)
- Database Management Fundamentals
- Data Integrity & Validation
- Web Technologies: HTML, CSS (Basic)
- Software Engineering: SDLC, Agile (SCRUM), Testing, Debugging
- Tools: Git, SQL, Power BI, Advanced Excel
- Systems: Systems Analysis, Database Systems
- Core Competencies: Problem Solving, Logical Thinking, Collaboration, Adaptability

EXPERIENCE

Graduate Software Developer – Derivco Pty Ltd

May 2026 – Present

- Developing and maintaining scalable software solutions in an agile environment
- Collaborating with cross-functional engineering and product teams
- Assisting with backend development, testing, debugging, and API integration
- Working with Git, CI/CD pipelines, and containerized development tools
- Writing clean, maintainable, and well-documented code
- Participating in code reviews, sprint planning, and team stand-ups

VOLUNTEER EXPERIENCE

Marketing Supervisor- WeThinkCode_ (Volunteer) Apr 2025 – May 2025

- Led a team of 13 student through various workshops.
- Processed and analysed datasets to support decision-making across internal teams
- Translated requirements into structured reports and visual outputs
- Improved reporting efficiency by streamlining data workflows and ensuring accuracy
- Collaborated in team environments to deliver data-driven solutions
- Worked with relational databases, writing SQL queries to extract and analyse data.

Project Manager – Climate & Data Initiatives - UNICEF UJ (Volunteer) Jan 2024 - Dec 2024

- Led data collection and reporting for programmes involving **50+ participants**
- Analysed programme data to evaluate impact and improve outcomes
- Designed structured reporting frameworks to track performance
- Collaborated with teams to deliver measurable project results

EDUCATION

Occupational Certificate: Software Engineering (NQF 6) – WeThinkCode_ (2025 – 2026)

Focus Areas: Data Management, SQL & Database Systems, Systems Analysis, Python Programming

Bachelor of Commerce in Business Management – University of Johannesburg (2020 – 2024)

Relevant Modules: Project Management, Financial Management, Managerial Accounting, Economics, Statistics

CERTIFICATIONS

- Oracle Cloud Infrastructure Foundations Associate
- Microsoft AI Fluency
- Full Stack Development – FNB App Academy
- Financial Literacy – Be Money Wise (SLP)

ACHIEVEMENTS

AI Data Insight Tool – Meta Llama Hackathon (1st Place)

- Designed and implemented a Python-based tool to analyse structured datasets and generate insights
- Applied coding, problem-solving, and analytical techniques under time constraints
- Collaborated within a team to build and present a working solution

Top 10 Finalist – NEMISA Discothon

Top 3 – Best Community Engagement Project (University of Johannesburg, 2023)

Miss University of Johannesburg 2023 – 3rd Runner-Up

- UNICEF UJ Board Member (2024)
